Key Recruiters: WUD students were recruited by leading national and global organisations across fashion, design, architecture, media, consulting, healthcare, manufacturing, digital platforms, and creative technology. Key recruiters for the Class of 2025 included **Rahul Mishra, Rohit Bal, Tarun Tahiliani, United Colors of Benetton, BIBA, Shahi Exports, Bodice Studio, Ogilvy, Dentsu, Dr. Reddy's Laboratories, Cars24, DTDC, Quant AI, Studio Lotus, Livspace, Homelane, Hettich, Mercury EV Tech, Eka Mobility**, and several fast-growing startups and digital enterprises. Students received offers across a wide spectrum of roles including fashion design, fashion communication, graphic design, branding, UI/UX design, interior design, product design, transportation design, animation, gaming, architecture, business strategy, and digital media.

Internships continued to be a powerful strength of WUD's professional ecosystem. During the Summer Internship 2024 cycle, more than 150 companies offered structured internships to third-year undergraduate and first-year postgraduate students. The highest monthly stipend reached ₹30,000–₹35,000, while the average stipend ranged between ₹10,000–₹15,000 per month, providing students with early exposure to real-world work environments and significantly improving their final placement readiness.

WUD's placement ecosystem reflects a strong design–technology–business integration, enabling graduates to build successful careers across global creative and knowledge industries
